

DESCOBRADER

DESCOBRADER / WELD-CLEANER

The Descobrader can be used for removing rust and paint or profiling. This machine was engineered to incorporate an in-line positive adjustment lever that allows precise adjustment of the head at the working surface. The Descobrader Weld Cleaning System was designed specifically for industries requiring extensive weld cleaning and is a proven cost saver.

Features and Specifications

The tool is a one man operation, is easily maneuverable and is highly productive. Multiple abrasive heads allow for a quick 30 second head change-out.

Coverage.....	Up to 720 lineal feet per hour
	Up to 5.25 inch cleaning swath
	Cleans to within 1.25 inch of vertical surface
Power - Electric.....	5 hp in 220 Single Phase
	220 three phase and 440 three phase
	Comes with 25' of 14 gauge electrical cord
Amps.....	16 amps with 220 three phase
	8 amps with 440 three phase

- 3,500 RPM
- Electric Only
- Uses Bristle, BPH hubs or XT hubs
- Uses sealed ball bearings on the drive shaft to maximize performance and optimize runtime.
- Used for Pre and Post Weld Cleaning
